

Sesta Series *by Vanguard Furniture*

The Sesta series pays homage to its roots in traditional American furniture with a modernized simplicity. Combining the dimensional framing on drawers with the grasscloth textured faces creates a sophisticated bedroom collection. Cabinets and nightstands feature canted pilasters and tapered legs with molding details, all subtle but distinctive elements of fine craftsmanship. Two-toned drawers are jeweled with simple round-ring pulls finished in a soft Sesta Bronze finish for understated elegance. The Sesta collection is sure to bring warmth and modern elegance into your home.
